Digital & Growth

SEO fundamentals, Analytics, Performance optimization, UX/UI, Digital platforms, E-Business operations

Practices & Tools

Git, CI/CD basics, Agile/Scrum, Responsive Design, Stakeholder collaboration, Documentation

EXPERIENCE

Frontend & Digital Solutions Engineer — Freelance / Projects (Oct 2023 – Present)

- Delivered custom web platforms for business use cases (job boards, dashboards, content-driven platforms).
- Worked end-to-end: requirements, UI/UX, frontend architecture, API integration.
- Focused on scalability, SEO fundamentals, and performance.

Frontend Developer — GnG Esports, Tunisia (Feb 2023 – Sep 2023)

- Delivered a production React.js marketing website for a gaming organization, collaborating closely with designers and stakeholders.
- Improved user engagement metrics (session duration +40%) through optimized UI, animations, and performance tuning.
- Ensured responsive, brand-aligned UI across devices.

Full-Stack Developer Intern — ATB Bank, Tunisia (Feb 2022 – Jul 2022)

- Built a digital banking prototype with secure authentication and real-time account data.
- Worked with APIs and data flows typical of financial systems.
- Optimized frontend data rendering, improving perceived performance by 35%.

EDUCATION

Bachelor's in E-Business — Higher School of Economic and Commercial Sciences, Tunisia (2022)
